Innovation Cell

Academy encourages use of innovative methods in the teaching-learning process at the UG and PG level and finds by and large successful. The teachers keep themselves abreast of the current trends in teaching learning methodologies from various sources like expert lectures, workshops and seminars on the subject and in turn adopt the same in their class room teaching. There is no denying the fact that the chalk- and talk way of class room teaching in still predominate in the all the departments but it is well supplemented using ICT. In our department has one or more LCD's which are used when ever required. The teachers do not hesitate in explaining things in local language for the benefits of those students who need it. It makes interaction and communication between teachers and the students very effective. Also, on regular basis Faculties arrange NPTEL lectures in the class which makes the teaching-learning session more effective and interesting. Each department provides previous years question papers to the students along with syllabus. Class room tests are conducted; the answer sheets are evaluated and discussed with individual students with all seriousness to show their importance and usefulness in the preparation of final examination. 20. Best Practices adopted, if any
- Concession in fees to the ward of the employees.
- A financial help of Rs. 5000/- per year to class IV employees for medical, marriage of the kids.
- Loan facility from the in house cooperative bank on nominal interest rates.
- The academy has zero resilience policy with CCTV cameras, security guards.
- Regular visits in the campus by the nominated faculties of the various committees like anti- ragging
- committee, women's grievance cell, sexual harassment cell under the zero tolerance policy.
- Under the "Swachh Bharat Abhiyan" campaign college maintains the cleanliness and hygienic conditions in the whole campus.
- For the eco-friendly environment ,the college is equipped with the two solar power plant, four solar water heaters in the hostels.
- Energy conservation is practiced by using LED bulbs and tube lights in most of the places.
- Biodegradable waste from the mess is converted into manure by the chemical process in the campus
